

Personalisation and the Opportunities for Social Enterprise

This event is Part 2 of a series of events to communicate developments and opportunities for Social Enterprises and other Third Sector organisations under the Personalisation Agenda in Health & Social Care.

Guest Speakers from DMBC and NHS Doncaster will be speaking to give their perspective on this new Government initiative, their plans for implementation and how this could impact upon your organisation in the Third Sector.

Join us at this event if you would like to:

- find out more about the opportunities for Third Sector organisations to become providers of services under this new Government initiative;
- ask questions at this very early stage of the development;
- network with light refreshments.

To book your free place, contact Ellen/Jaimie on 01302 343300 Ext 240/227 or e-mail Ellen at: eshiple@doncastercvs.org.uk
